

BASIC FIREARMS

SAFETY must be your first concern when handling, using, or storing any firearm.

Always

- ... treat a firearm as if it is loaded.
- ... make sure the firearm is pointed in a safe direction.
- ... keep your finger out of the trigger guard and off the trigger until you are ready to fire.
- ... keep the firearm unloaded until you are ready to use it.
- ... be aware that safety devices can (and sometimes do) fail.
- ... make sure the firearm is in safe operating condition before using it.
- ... use ammunition designed for use in your firearm.
- ... be sure of your target and what lies behind it.
- ... wear ear and eye protection when shooting.
- ... refrain from using alcohol or drugs before or while shooting.
- ... store firearms in a locked container and separate from ammunition. Be certain that firearms are inaccessible to children and unauthorized adults.

CHILDREN & FIREARMS

Few accidents are as tragic, or as preventable, as those involving children and firearms. Having children in the home, whether they live there or are visiting, makes it even more important to practice safe storage of firearms:

- Do not underestimate the ability of children to find, or reach a firearm you thought was safely hidden.
- Check stored firearms periodically to be sure that security devices are still intact, & that the firearms have not been loaded by an unauthorized person. Not only will this help ensure that your firearms are stored safely, this will also allow you to inspect your firearms for dirt, corrosion, or other conditions requiring maintenance or repair.
- There are many safety programs designed for children. As soon as they are old enough to understand, educate your children about firearms safety.

PA INSTANT CHECK SYSTEM P. I. C. S.

The Pennsylvania State Police implemented the Pennsylvania Instant Check System (PICS) on July 1, 1998. This state of the art system provides instant access to background records on an individual to determine if the person is eligible to purchase a firearm or acquire a license to carry a firearm.

Pennsylvania Firearm Dealers and County Sheriffs access the PICS program through a toll free telephone number. If an individual is eligible to acquire a firearm, the PICS background check replaces the former, mandatory five-day waiting period. Operation has shown that approximately 60% of the individuals attempting to purchase a firearm can be approved instantly.

The PICS background check program issues only approval or denial determinations. By law, no record information may be disseminated as a result of the background check.

There are instances where temporary delays in approval or denial determinations are necessary. If a record is identified and is incomplete, it is necessary to research the record and contact the agency(s) that may be able to provide information required in order to complete the background check. There are also occasions in the circumstance of a common name, that time is required to ensure whether or not the record actually belongs to the individual attempting to purchase a firearm.

The primary purpose of PICS is public safety, to ensure an eligible person may acquire a firearm and that a prohibited person may not!

REMEMBER

Most firearms accidents are preventable. Protect yourself & your loved ones by taking firearms safety seriously.

QUESTIONS AND ANSWERS

Q If I possess a valid license to carry a firearm, am I required to undergo a Pennsylvania Instant Check System (PICS) background check to purchase a firearm?

A Yes. Section 6111 of the Uniform Firearms Act (UFA) requires that a dealer complete a PICS check before delivering a firearm to a buyer. The exception granted to license to carry holders and law enforcement officers applied to the waiting period which was replaced by the instant check, and no longer applies.

Q What if I own a firearm, and I am convicted of a crime which prohibits me from possessing firearms?

A You have 60 days from the date of the imposition of any disability (such as a conviction which prohibits ownership of a firearm) to sell or transfer any firearms you own to a person who is not a member of your household.

Q Do I need a license to possess a firearm?

A You do not need a license to possess a firearm; however, a license to carry is required for the purpose of carrying a firearm concealed on or about your person, or in a vehicle within this Commonwealth. Exceptions can be found in Section 6106 (b) of the UFA.

Q What do I need to do if I want to sell or transfer a handgun to a friend?

A You must have a licensed firearm dealer or sheriff process the transaction. The \$3 surcharge does not apply. There will be a \$2, Pennsylvania Instant Check System (PICS) background check done on the intended recipient of the handgun, to ensure the individual is eligible to acquire the handgun.

Q If I have a criminal record from many years ago, and I have not committed a prohibited offense since then, is it possible that I may be able to purchase a firearm?

A The current Uniform Firearms Act does not exempt criminal records from a specific time period in order to acquire a firearm. Also, criminal records are not automatically expunged (deleted) after a period of time. In Pennsylvania, a court order is required to expunge non-conviction information. Conviction information may not be expunged. It is possible to obtain court ordered relief from a firearm disability, which may grant eligibility to acquire a firearm.

Q Can I allow persons under the age of 18 to use firearms?

A Persons under the age of 18 (minors) may only possess or transport a handgun (any pistol or revolver with a barrel length less than 15 inches, shotguns with a barrel length less than 18 inches, any rifle with a barrel length less than 16 inches, or firearms with an overall length of less than 26 inches) under the following circumstances:

- The person is under the supervision of a parent, grandparent, legal guardian, or an adult acting with the expressed consent of the minor's custodial parent or legal guardian, and the minor is engaged in lawful activity, including safety training, lawful target shooting, engaging in an organized competition involving the use of a firearm, or the firearm is unloaded and the minor is transporting it for a lawful purpose; or
- The person is lawfully hunting or trapping in accordance with 34 PA C.S. (relating to game).

Q What types of identification do I need to purchase a firearm?

A Dealers may accept any one of the following documents as identification:

- A valid photo driver's license.
- A valid government-issued photo ID card.

Because Pennsylvania is a point of contact (POC) for the National Instant Check System (NICS), operational November 30, 1998, we agree to do the federal firearm background check (Brady check) which requires a photo identification card. Even though the Pennsylvania law provides for non-photo ID, for members of religious sects whose tenets forbid or discourage the taking of photographs, it is now required that a photo ID be provided.

Q What would prohibit me from lawfully possessing or purchasing a firearm?

A There are 37 crimes for which a conviction would prohibit a person from lawfully purchasing or possessing a firearm under the UFA. There are seven conditions which would prohibit this also. Additionally, one condition (three convictions for driving under the influence of alcohol or controlled substance, within a five-year period) prohibits subsequent purchase or receipt by transfer, but not possession of firearms already owned. Following are prohibited offenses and conditions listed in the UFA under § 6105.
